# Writing About the Brand

## Brand Messaging & Tone

Brand messaging (what is communicated) and tone (how it is communicated) are essential in shaping the overall brand experience and driving sales by using clear, concise language in a unique way that resonates with consumers. Integrating emotional drivers into messaging inspires customers to take action, creating a stronger connection with the brand. The goal is to deliver professional, credible, and consistent content across all locations, ensuring a cohesive and reliable brand presence that supports long-term growth.

### Guidelines

#### Do:

- Highlight key brand differentiators in a clear and concise manner that reflects brand values.
- Use words that reflect a helpful and professional tone.

#### Correct Examples

“Where Office Tasks Get Done”

“Compare Shipping Rates”

“Get More Done in One Stop”

“More Ways to Ship”

“Professional Services. Expert Help.”

#### Don't:

- Write in a way that is overly humorous or sarcastic.
- Overpromise and exaggerate service and product offerings.
- Write lengthy or wordy messaging.

#### Incorrect Examples

“We Know Our Ship.”

“We’ve got all the ship to choose from so you can save on ship.”

“Your Business is Ours to Handle”

“Experts at your service for all of your professional needs.”

## Including Legal Language

To protect the brand and its assets, all designs that include registered brand marks need to include appropriate legal language. This helps ensure compliance with trademark, copyright, and other regulatory requirements while maintaining brand integrity.

Include Basic Legal Language on all designs to indicate each location is independently owned and operated by licensed franchisees, and that registered brand marks are used under license.

#### Example of Basic Legal Language for items created by a franchisee or third party:

©2025. PostalAnnex® locations are individually owned and operated by licensed franchisees of Annex Brands, Inc. PostalAnnex® registered marks are owned by Annex Brands, Inc. and used under license.

For designs that include coupons/offers, include Coupon/Offer Legal Language on each coupon/offer. **See *Promotional/Offers section for Coupon/Offer Legal Language example and format guidelines.***

# Brand Name & Logos

The PostalAnnex brand name and logos are the cornerstone of the brand's visual identity and it should be prominently featured on all designs and communication materials. Consistent and correct use of the brand name and logos strengthens brand recognition across all audiences.

## Usage Guidelines

- The image quality of the logo must be in focus and clear. Not pixelated or blurry.
- The PostalAnnex logo must appear on all communications and marketing collateral.
- Logos may not be modified in any way, neither cropped or cut in any way. This includes, but is not restricted to, type, the vertical line, outlines, and embellishments. Do not create secondary or tertiary logos, as this is confusing to audiences and dilutes the brand image.
- Logos must include registered trademark symbol (®) for wordmark "PostalAnnex" and "Your Home Office" tagline, with the exception of certain signage and embroidery.
- The brand name "PostalAnnex" should always be written as one word, without any spaces or "+" and with the "P" in "Postal" and the "A" in "Annex" capitalized.
- The brand name "PostalAnnex" should be non-possessive, and never as "PostalAnnex's" in copy.

# Logo Color Options

Full-color on White/Light Background

Full-color on 100% Black Background

Two-color

100% White on Dark Backgrounds

One-Color 100% Black

One-Color 60% Black

## Guidelines

- Make sure the logo is much darker or lighter than the background color or imagery. Logos should have adequate contrast when layered on top of any color or image. Ensure the logo is clearly visible and doesn't get overpowered by any imagery.

# Logo Usage & Clearspace

## Clearspace Requirements

To ensure the integrity and visual impact of the logo, the appropriate “clearspace” must be maintained on all sides. Specific clearspace required around the logo is indicated below as “x”, which is half the height of the total logo height.

1/2 the height of the logo height

# Incorrect Logo Usage

Do not distort or alter the color or proportions of the logo

Do not alter the spacing of the letters

Do not create custom taglines

Do not alter or tilt the tagline

Do not recreate the type or substitute another typeface

Do not place graphics or text in the clear space area

Do not add any glow, or busy background patterns, textures or colors that compete with the logo

Do not adjust the name format or add punctuation/symbols when written

# Photography

Brand photography for PostalAnnex reflect brand values and presents the customer experience in a professional, clean, and welcoming environment. Brand photography is warm and bright, with natural color tones that create an inviting and approachable aesthetic. Images have neutral contrast, and avoid any harsh tones that could detract from the overall feel. The focus of each photo should highlight the subjects and their actions, capturing authentic, genuine expressions rather than overly posed or staged appearances. Images are primarily shot at eye level or from a bird's-eye view, to ensure that angles remain clean and professional without feeling awkward. Every image reflects the brand's professionalism and expertise to convey a sense of trustworthiness and competence in each visual representation.
